About

This indicator is the percentage of acute care patients who reported that they always received these services in the official language of their choice [among patients who prefer to receive services in French].

Source

Hospital Acute Care Survey

Calculations

This indicator is based on respondents who prefer to receive services in French. This indicator is calculated by dividing the number of respondents who answered "always" by the number of respondents who answered "never, sometimes, usually or always" to the question: How often did you receive the service you needed in the official language (English or French) of your choice?

Unit	Interpretation	NBHC code
