**About**

This indicator is the percentage of acute care patients who reported that hospital staff always checked their identification band before giving them medication, treatments or tests.

**Source**

Hospital Acute Care Survey

**Calculations**

This indicator is calculated by dividing the number of respondents who answered "yes, always" by the number of respondents who answered "yes, always, yes, sometimes or no" to the question: Did staff check your identification band before giving you medicines, treatments, or tests?
