About

This indicator is the percentage of citizens without a primary care provider who used eVisitNB in the last 12 months and said that the services they received completely met their needs.

Source

Primary Health Survey and Primary Care Survey

Calculations

This indicator is based on respondents who do not have a family doctor or a nurse practitioner and needed medical care in the last 12 months and used eVisitNB. This indicator is calculated by dividing the number of respondents who answered "yes, completely" by the number of respondents who answered "no, yes, partially or yes, completely" to the question: When you used eVisitNB, did the services you received from this consultation meet your needs?

Unit	Interpretation	NBHC code
