## About

This indicator is the percentage of citizens without a primary care provider who used other services the last time they needed medical care in the last 12 months.

## Source

Primary Health Survey and Primary Care Survey

## Calculations

This indicator is based on respondents who do not have a family doctor or a nurse practitioner. This indicator is calculated by dividing the number of respondents who answered "yes" by the number of respondents who answered "yes or no" to the question: In the last 12 months, thinking of the last time you needed medical care, did you use any of the following services? g) Other, please specify

Unit	NBHC code
%	PC_NODOT_1
