About

This indicator is the percentage of citizens who had a virtual care consultation (including Tele-Care 811) in the last 12 months.

Source

Primary Health Survey and Primary Care Survey

Calculations

This indicator is calculated by dividing the number of respondents who answered "yes" by the number of respondents who answered "yes or no" to the question: In the last 12 months, did you have a virtual consultation for your own personal medical care? This includes any type of health professional, and this also includes Tele-Care 811.
