About

This indicator is the percentage of citizens who reported that they were somewhat or very satisfied with the health care services they received during their last virtual consultation.

Source

Primary Health Survey and Primary Care Survey

Calculations

This indicator is based on respondents who had a virtual care consultation in the last 12 months. This indicator is calculated by dividing the number of respondents who answered "somewhat satisfied or very satisfied" by the number of respondents who answered "very dissatisfied, somewhat dissatisfied, neither satisfied nor dissatisfied, somewhat satisfied or very satisfied" to the question: Thinking of the last time you had a virtual consultation, what was your level of satisfaction with the health care services you received from this health professional?

Unit	Interpretation	NBHC code
