# About this Table

**Content and description**

Data on self-reported information regarding New Brunswickers access to health care services and barriers in accessing the services. Topics include having a primary care provider, barriers to health care services as well as the overall experience with health care services.

**Why it is important**

The results from the Primary Care Survey allows the NBHC to inform citizens and health system stakeholders about the quality of primary health care services from citizens' perspectives. This information can be used to make future improvements to primary health care in the province.

**Availability of the data**

The information for this data table is available at different geographical levels as well as by demographic groups. More information is available on our [Primary Care Survey](#) page.
