

PRIMARY CARE SURVEY

Key Indicators

Attachment

Has a primary care provider (family doctor or nurse practitioner) % 2024	83.5	77.2
Has a personal family doctor % 2024	83.1	74.2
Has a personal nurse practitioner % 2023	1.3	3.6
Registered with NB Health Link % 2024	7.1	9.2

Accessibility

Can get an appointment with their primary care provider within 5 days % 2024	26.1	34.2
Can get an appointment with their family doctor within 5 days % 2024	25.8	34.5

Zone 7
Miramichi Area

Province
New Brunswick

Use of other health care services because of unavailability of provider

Used one or more other health care services in the last 12 months % 2024	73.1	69.7
Pharmacist % 2024	40.6	37.8
Hospital emergency department % 2024	36.9	29.8
Allied health professional % 2024	26.7	24.9
After-hours clinic or a walk-in clinic % 2024	32.0	22.8
Specialist % 2024	17.8	22.6
eVisitNB % 2024	26.5	20.4
Tele-Care 811 % 2024	9.2	10.6
Another service % 2024	11.2	9.6

Barriers accessing care

Services not available in area % 2024	32.5	31.0
Trouble navigating the health system % 2024	16.7	18.6
Had to travel over 100 kms/60 miles % 2024	26.6	17.0

Zone 7 **Province**
Miramichi Area New Brunswick

Chronic health conditions and management

One (1) or more chronic health conditions % 2024	73.3	67.4
Confidence in managing their health conditions, very confident % 2024	32.4	34.2

About this Table

Content and description

Data on self-reported information regarding the accessibility and experiences in using health care services. Topics include attachment and accessibility to a primary care provider within 5 days, use of other health care services because the primary care provider is not available as well as main barriers to accessing health care services and management of chronic health conditions.

Why it is important

The results from the Primary Care Survey allows the NBHC to inform citizens and health system stakeholders about the quality of primary health care services from citizens' perspectives. This information can be used to make future improvements to primary health care in the province.

Availability of the data

The information for this data table is available at different geographical levels as well as by demographic groups. More information is available on our [Primary Care Survey page](#).

Note about demographic groups

In 2023, the NBHC undertook a review of the demographic questions in its surveys to more accurately report on the experience of citizens who identify with particular groups. As such, starting in 2024, all demographic groups (characteristics) have been adjusted to reflect this change. Data tables and indicator pages were adjusted to allow for trending where applicable.
