## About

This indicator is the percentage of students in grades 4 and 5 who reported they have been bullied online (for example, receiving mean text messages or having rumours spread about them on the Internet or on social media) in the last two months [among those who have been bullied].

## Source

Department of Education and Early Childhood Development

## Calculations

This indicator is calculated by dividing the number of respondents who answered "yes" by the number of respondents who answered "yes or no" to the question: In the last two months, have you been bullied at school in the ways listed below? c) Online bullying (for example, receiving mean text messages or having rumours spread about you on the Internet or on social media).

## Notes

This indicator is based on a survey question for students in New Brunswick's Anglophone schools. Survey results are only available for the Anglophone sector and Anglophone school districts.
