**About**

This indicator is the percentage of parents or guardians of students in grades K to 5 who reported that their child identifies as a person with a disability or special need.

**Source**

Student Wellness and Education Survey, Grades K-5: Parent/Guardian Perspective

**Calculations**

This indicator is calculated by dividing the number of respondents who answered "yes" by the number of respondents who answered "yes, no or I do not know" to the question: Does your child identify with any of the following groups? Persons with a disability or special need

**Notes**

This indicator has replaced SA\_SENAV\_1 starting with the 2023-2024 edition of the questionnaire. Due to the very low response rate for the 2025-2026 parent questionnaire, survey results may not be representative of the overall student and parent population. Therefore, results should not be used for planning or comparing to previous editions of the survey. Some schools will not receive their K to 5 results due to the extremely low number of parents who responded.
