## About

This indicator is the percentage of citizens without a primary care provider who had a consultation with a specialist in the last 12 months and reported that they were somewhat or very satisfied with the health care services they received.

## Source

Primary Health Survey and Primary Care Survey

## Calculations

This indicator is based on respondents who do not have a family doctor or nurse practitioner and had a consultation with a specialist in the last 12 months.. This indicator is calculated by dividing the number of respondents who answered "somewhat satisfied or very satisfied" by the number of respondents who answered "very dissatisfied, somewhat dissatisfied, neither satisfied nor dissatisfied, somewhat satisfied or very satisfied" to the question: What was your level of satisfaction with the health care services you received. f) Consultation with a specialist
