### **About**

This indicator is the percentage of citizens without a primary care provider who reported that they had a consultation with a specialist when they needed medical care in the last 12 months.

### Source

Primary Health Survey and Primary Care Survey

## **Calculations**

This indicator is based on respondents who do not have a family doctor or a nurse practitioner. This indicator is calculated by dividing the number of respondents who answered "yes" by the number of respondents who answered "yes or no" to the question: Thinking of the last 12 months, did you use any of the following services when you needed medical care? f) Consultation with a specialist

Unit NBHC code % PC\_NMCSP\_1
