| Racialized groups                      | 38.9         |

### About

This indicator is the percentage of citizens who are registered with NB Health Link who reported that they had an in-person or a virtual medical appointment using NB Health Link in the last 12 months.

### Source

Primary Health Survey and Primary Care Survey

### Calculations

This indicator is based on respondents who do not have a family doctor or nurse practitioner and who are registered with NB Health Link. This indicator is calculated by dividing the number of respondents who answered "yes" by the number of respondents who answered "yes or no" to the question: In the last 12 months, did you have an in-person or virtual medical appointment using NB Health Link?
