# About this Table

**Content and description**

This table presents data collected from students in grades 6 to 12 through the New Brunswick Student Wellness and Education Survey (SWES). It contains self-reported information regarding key protective and risk factors and mental health outcomes of New Brunswick students in grades 6 to 12. The questionnaire comprises modules, which means that certain questions are asked every other cycle.

**Why it is important**

Only when we understand who our students are and what their needs are can we better plan for services and allocate resources to meet their health and educational needs.

**Availability of the data**

The information in this data table is available for New Brunswick and by the 33 communities created by the NBHC. More information is available on our [New Brunswick Student Wellness and Education Survey](#) page.
