About

This indicator is the percentage of acute care patients admitted without going through the emergency department who reported that the admission process was completely organized.

Source

Hospital Acute Care Survey

Calculations

This indicator is based on respondents who were not admitted through the emergency department. This indicator is calculated by dividing the number of respondents who answered "completely" by the number of respondents who answered "not at all, partly, quite a bit or completely" to the question: Was your admission into the hospital organized?

Unit	Interpretation	NBHC code
%	Higher is better	AU_ADM03_1
