About

This indicator is the percentage of acute care patients who reported that tests and procedures were always done when they were told that they would be done.

Source

Hospital Acute Care Survey

Calculations

This indicator is calculated by dividing the number of respondents who answered "always" by the number of respondents who answered "never, sometimes, usually or always" to the question: How often were tests and procedures done when you were told they would be done?

Unit	Interpretation	NBHC code
%	Higher is better	AU_CRD03_1
