About

This indicator is the percentage of acute care patients who reported that they had a completely clear understanding about all of their prescribed medications before leaving the hospital.

Source

Hospital Acute Care Survey

Calculations

This indicator is calculated by dividing the number of respondents who answered "completely" by the number of respondents who answered "not at all, partly, quite a bit or completely" to the question: Before you left the hospital, did you have a clear understanding about all of your prescribed medications, including those you were taking before your hospital stay?

Unit	Interpretation	NBHC code
