Postsecondary	77.3

**About**

This indicator is the percentage of acute care patients who reported that they had a completely clear understanding about all of their prescribed medications before leaving the hospital.

**Source**

Hospital Acute Care Survey

**Calculations**

This indicator is calculated by dividing the number of respondents who answered "completely" by the number of respondents who answered "not at all, partly, quite a bit or completely" to the question: Before you left the hospital, did you have a clear understanding about all of your prescribed medications, including those you were taking before your hospital stay?
