**About**

This indicator is the percentage of acute care patients who reported that they strongly agreed that the hospital staff took their preferences and those of their family or caregiver into account in deciding what their health care needs would be after leaving the hospital.

**Source**

Hospital Acute Care Survey

**Calculations**

This indicator is calculated by dividing the number of respondents who answered "strongly agree" by the number of respondents who answered "strongly disagree, disagree, agree or strongly agree" to the question: The hospital staff took my preferences and those of my family or caregiver into account in deciding what my health care needs would be when I left the hospital.
