## About

This indicator is the percentage of acute care patients who reported that the hospital staff told them what day they would likely be able to leave the hospital.

## Source

Hospital Acute Care Survey

## Calculations

This indicator is calculated by dividing the number of respondents who answered "yes, within the first two days, I was told what day I would likely be able to leave the hospital or yes, after the first two days, I was told what day I would likely be able to leave the hospita by the number of respondents who answered "yes, within the first two days, I was told what day I would likely be able to leave the hospital, yes, after the first two days, I was told what day I would likely be able to leave the hospital or no, I was not told what day I would likely be able to leave the hospita to the question: Were you told what day you would likely be able to leave the hospital?
