Postsecondary	<b>78.0</b>

About

This indicator is the percentage of acute care patients who reported that they prefer to receive hospital services in English.

Source

Hospital Acute Care Survey

Calculations

This indicator is calculated by dividing the number of respondents who answered "English" by the number of respondents who answered "English, French, English or French (no preference) or other, please specify" to the question: In New Brunswick, you have the right to receive hospital services in English or French. When receiving hospital services, what language do you prefer?
