### About

This indicator is the percentage of acute care patients who reported that the area around their room was always quiet at night.

### Source

Hospital Acute Care Survey

### Calculations

This indicator is calculated by dividing the number of respondents who answered "always" by the number of respondents who answered "never, sometimes, usually or always" to the question: During this hospital stay, how often was the area around your room quiet at night?

---

Unit	Interpretation	NBHC code
%	Higher is better	AU_PHY02_1
