About

This indicator is the percentage of acute care patients who reported that the area around their room was always quiet at night.

Source

Hospital Acute Care Survey

Calculations

This indicator is calculated by dividing the number of respondents who answered "always" by the number of respondents who answered "never, sometimes, usually or always" to the question: During this hospital stay, how often was the area around your room quiet at night?

Unit	Interpretation	NBHC code
%	Higher is better	AU_PHY02_1
