About

This indicator is the percentage of acute care patients who reported that they needed to have a family member or a friend stay with them during their hospital stay to feel safe.

Source

Hospital Acute Care Survey

Calculations

This indicator is calculated by dividing the number of respondents who answered "yes" by the number of respondents who answered "yes or no" to the question: Did you feel that you needed to have a family member or a friend stay with you during your hospital stay for you to feel safe?

Unit	Interpretation	NBHC code
%	Lower is better	AU_SAF02_1
