About

This indicator is the percentage of acute care patients who noticed that hospital staff always washed their hands before caring for them.

Source

Hospital Acute Care Survey

Calculations

This indicator is calculated by dividing the number of respondents who answered "yes, always" by the number of respondents who answered "yes, always, yes, sometimes or never" to the question: Did you notice staff wash or disinfect their hands before caring for you?

Unit	Interpretation	NBHC code
%	Higher is better	AU_SAF04_1
