About

This indicator is the percentage of acute care patients who reported that a family member or a friend felt they needed to stay with them during their hospital stay for them to feel safe.

Source

Hospital Acute Care Survey

Calculations

This indicator is calculated by dividing the number of respondents who answered "yes" by the number of respondents who answered "yes or no" to the question: Did a family member or friend feel that they needed to stay with you during your hospital stay for you to feel safe?

Unit	Interpretation	NBHC code
%	Lower is better	AU_SAF06_1
