About

This indicator measures the percentage of cancer surgeries classified as "recommended to be completed within 3 months" that were completed within 3 months. The category is based on the New Brunswick Clinical Acuity Model and is classified by the surgeon according to their priority level.

Source

Surgical Access Registry

Calculations

Numerator: Number of cancer surgeries classified as "recommended to be completed within 3 months", that were completed within 3 months
Denominator: Number of cancer surgeries classified as "recommended to be completed within 3 months"

Notes

Wait times are calculated from the date that the patient and physician agree to the surgery and the patient is ready to receive it to the date of the completion of surgery and are collected through the Provincial Surgical Access Registry. This indicator does not include emergency surgeries. Timeframes during which the patient was not available to have surgery are excluded from the wait time calculations.
