## About

This indicator measures the length of time from when a new Extra-Mural Program patient referral is received to the time of the first intervention (visit or care event) by a speech language pathologist, respiratory therapist, registered dietician, or social worker, in days. 50% of patients waited this number of days or less, between their new referral being received and their initial care event.

## Source

EM/ANB

## Calculations

# of days for which 50% of the patients waited less than, between their new referral being received and their initial care event

Unit	Interpretation	NBHC code
Days	Lower is better	EMANB_005
