

## Median wait time for other Extra-Mural Program services

Unit : Days

|  | Fiscal Year<br>2024-2025 | Fiscal Year<br>2023-2024 |
|--|--------------------------|--------------------------|
| <b>Province</b>                              |                          |                          |
| New Brunswick                                | 5.0                      | 5.0                      |
| <b>Health zones</b>                          |                          |                          |
| Zone 1 - Moncton and South-East Area         | 6.0                      | 6.0                      |
| Zone 2 - Fundy Shore and Saint John Area     | 5.0                      | 5.0                      |
| Zone 3 - Fredericton and River Valley Area   | 5.0                      | 4.0                      |
| Zone 4 - Madawaska and North-West Area       | 5.0                      | 4.0                      |
| Zone 5 - Restigouche Area                    | 5.0                      | 4.5                      |
| Zone 6 - Bathurst and Acadian Peninsula Area | 4.0                      | 4.5                      |
| Zone 7 - Miramichi Area                      | 6.0                      | 7.0                      |

### About

This indicator measures the length of time from when a new Extra-Mural Program patient referral is received to the time of the first intervention (visit or care event) by a speech language pathologist, respiratory therapist, registered dietician, or social worker, in days. 50% of patients waited this number of days or less, between their new referral being received and their initial care event.

### Source

EM/ANB

### Calculations

# of days for which 50% of the patients waited less than, between their new referral being received and their initial care event
