About

This indicator measures the average time needed to offload patients to the Emergency Department from a 911 transport. Offload duration is the interval from when the ambulance arrives at hospital to when the ambulance is available at the hospital, measured on 911 transports only.

Source

EM/ANB

Calculations

Numerator: Sum of 911 offload durations. Denominator: Total number of 911 offloads.

Unit	Interpretation	NBHC code
