## About

This indicator is the percentage of students in grades 4 and 5 who reported they did not want to go to school because they were afraid someone would physically hurt them.

## Source

Department of Education and Early Childhood Development

## Calculations

This indicator is calculated by dividing the number of respondents who answered "mostly true or very true" by the number of respondents who answered "not at all true, only a little true, mostly true or very true" to the question: Pick the choice that best describes how you feel. During the past two weeks... a) I did not want to go to school because I was afraid someone would physically hurt me.

## Notes

This indicator is based on a survey question for students in New Brunswick's Anglophone schools. Survey results are only available for the Anglophone sector and Anglophone school districts.
