## About

This indicator is the percentage of citizens receiving home care services from home support workers who reported that they have been diagnosed or treated for five (5) or more chronic health conditions (among a list of 15 conditions).

## Source

Home Care Survey

## Calculations

This indicator is calculated by dividing the number of respondents who answered "yes to at least 5 chronic health conditions asked in the questionnaire" by the number of respondents who answered "yes or no, to at least 1 of the options" to the question: Has a doctor or any other health professional ever diagnosed you with or treated you for any of the following chronic health conditions? Please select all that apply: arthritis, asthma, emphysema or COPD (chronic obstructive pulmonary disease), chronic pain, cancer, diabetes, depression, heart disease, stroke, high blood pressure or hypertension, a mood disorder other than depression, such as bipolar disorder, mania, manic depression or dysthymia, gastric reflux (or GERD), alzheimer's disease or another form of dementia, anxiety or high cholesterol.
