About

This indicator is the percentage of citizens with a preference for English or French who reported that they always received home care services in the official language they preferred during their interactions with home support workers in the last 2 months.

Source

Home Care Survey

Calculations

This indicator is based on respondents who have a preference for services in English or French. This indicator is calculated by dividing the number of respondents who answered "always" by the number of respondents who answered "never, sometimes, usually or always" to the question: During your interaction(s) with home support services in the last 2 months, how often did you receive the services in the language you preferred?

Notes

This indicator has replaced the following indicator(s) previously available on our website: HS_LOS05_1

Unit	Interpretation	NBHC code
%	Higher is better	HS_LOS11_1
