About

This indicator is the percentage of citizens receiving home care services from the Extra-Mural Program who reported that they went to the hospital emergency department in the last 12 months during the time they were receiving services from the Extra-Mural Program.

Source

Home Care Survey

Calculations

This indicator is calculated by dividing the number of respondents who answered "yes" by the number of respondents who answered "yes or no" to the question: In the last 12 months, did you have to visit the hospital emergency room during the time you were receiving Extra-Mural services?
