About

Percentage of hip fractures surgically treated within 48 hours of a patient's initial admission to an acute care hospital, among patients aged 18 and older

Source

Discharge Abstract Database

Calculations

https://www.cihi.ca/en/indicators/hip-fracture-surgery-within-48-hours

Notes

Wait time is calculated from the episode start date/time (admission date/time of first acute hospitalization of the episode of care) to the procedure date/time of the hip fracture surgery

Unit	Interpretation	NBHC code
%	Higher is better	CIHI-YHSD-027
