[^2]
[^0]:    ${ }^{5}$ Self-reported by respondent: Diabetes, heart disease, stroke or high blood pressure
    ${ }^{6}$ For this type of indicator, a "better" result is achieved when the indicator has a "lower" value
    ${ }^{7}$ Self-reported by respondent: Arthritis, asthma, cancer, chronic pain, depression, diabetes, emphysema or COPD, gastric reflux (GERD), heart disease, high blood pressure or hypertension, mood disorder other than depression, or stroke ${ }^{E}$ Use with caution (coefficient of variation between $16.7 \%$ and $33.3 \%$ )

[^1]:    Confidence interval calculated at a $95 \%$ level of confidence.
    Sample size shown represents total number of respondents. Exact number of respondents varies per survey indicator.

[^2]:    Confidence interval calculated at a 95\% level of confidence.
    Sample size shown represents total number of respondents.
    Exact number of respondents varies per survey indicator.
